NEIGHBORHOOD SUPPORT TEAM

At BSO, community policing is our core belief. We understand how small interactions with the public achieve huge safety results. And now, we're taking community policing to a whole new level!

We are launching the ***Neighborhood Support Team (NST)***, an innovative and exciting new initiative that is strengthening relationships between law enforcement and the vibrant and diverse communities we serve.

WHAT IS NST?

The NST consists of dedicated law enforcement representatives working side-by-side with various members of the community, including civic leaders, business stakeholders, faith-based institutions, youth groups and residents like you, to develop a strong network of representation and involvement.

No one knows their community better than those who live there. These individuals and groups are the eyes and ears of their neighborhoods. They have the pulse of the community, understand its strengths and can provide an intimate perspective on the needs of the area beyond routine calls of service.

WHAT DOES NST DO?

- » BSO representatives host monthly meetings with stakeholders to maintain engagement and continue to foster positive working relationships.
- » They also play an active role in various community events, experiences and partnerships.
- » Teams provide numerous educational opportunities and help connect varied groups to vital resources that can help provide assistance they need.
- » By bridging the gap in communication, building trust and respect and raising awareness, the NST contributes to a safer and brighter future for all of Broward.

GET INVOLVED!

Make your voice heard and be a part of something special! To learn more about the **Neighborhood Support Team** and how **YOU** can make a difference in your community, please visit us at sheriff.org/nst.
