

# PARK, WALK AND TALK

The Broward Sheriff's Office is dedicated to building stronger connections with the Broward County community. The Park, Walk and Talk initiative allows deputies to engage directly with residents by parking their cars, walking through neighborhoods and having conversations with people in their homes and businesses. This initiative provides additional opportunities for interaction. BSO values open communication and encourages residents to share any concerns or issues they may have, emphasizing the importance of mutual respect and trust between law enforcement and the community.
