Updated FDLE Course of Fire

With the assistance of the Training Center Directors Association, Florida's state law enforcement agencies, the Florida Sheriffs Association and the Florida Police Chiefs Association, Commission staff formed a group of subject matter experts (SMEs) in January 2020 to help revise the basic recruit training (BRT) Firearms course, instructor course, and **in-service qualification**. The SMEs were responsible for developing content and providing feedback throughout the curriculum development process. They have made multiple recommendations based on research and data regarding officer-involved shootings, as well as their own experience as firearms instructors and sworn officers. The SME workgroup completed the nearly three-year curriculum rewrite after conducting several in-person workshops and field test evaluations across the state. The updated curriculum was presented and approved at the November Criminal Justice Standards and Training Commission meeting.

Changes to the Daylight Handgun Qualification Course:

- 38 rounds instead of 40 rounds
- Removed the 25-yard line
