

4th of July

★ SAFETY TIPS ★

When handling fireworks, you should **NEVER**:

- Allow young children to handle fireworks.
- Let anyone under the age of 18 handle fireworks without adult supervision.
- Hold lit fireworks in your hands.
- Point or throw fireworks at another person.
- Light multiple fireworks at one time.
- Try to relight or pick up fireworks that have not fully ignited.
- Place a part of your body directly over any fireworks when lighting them.
- Light fireworks indoors.
- Use fireworks while under the influence.
- Fire a gun in the air. Falling bullets can kill someone.

If you want to see fireworks, leave it to the professionals.

“Setting off fireworks may seem fun and exciting, but it can be dangerous-and at times-deadly. Follow these helpful tips to keep you and your loved ones free from harm this 4th of July weekend.”
